EUROPEAN HIGH PERFORMANCE COMPUTING JOINT UNDERTAKING

The Interim Executive Director

Executive summary of the 12th meeting of the Infrastructure Advisory Group of the European High Performance Computing (EuroHPC) Joint Undertaking

Thursday 25, June 2020, virtual meeting

Executive Summary

The 12th meeting of the EuroHPC Infrastructure Advisory Group (INFRAG) took place on 25th June 2020. The meeting was organised remotely using a teleconferencing system due to the Covid-19 pandemic and the traveling restrictions in place.

INFRAG members were informed about the progress of the currently running EuroHPC procurements and the deployment plans of future systems. The progress of the Research & Innovation pillar was also discussed.

The meeting focused on the activities of the various WG and in particular of the Industrial Users WG. INFRAG has been assigned a clear mandate by the EuroHPC GB to work on the aspect of industrial users requirements and access. The group discussed on the scope and candidate members of the WG and brainstormed on the next steps to be implemented.

Due to lack of time less progress was made on the subject of Multiannual Strategic Agenda. The group agreed to organise a series of dedicated working meetings on the subject in the following months, involving primarily members of the MSA editorial team.
