

EUROPEAN HIGH PERFORMANCE COMPUTING JOINT UNDERTAKING

Summary of the 7th meeting of the Infrastructure Advisory Group (INFRAG) of the European High Performance Computing (EuroHPC) Joint Undertaking 26 June 2019

Executive Summary

The 7th meeting of the EuroHPC Infrastructure Advisory Group (INFRAG) took place in Brussels on June 26th 2019. The main goal of the meeting was to continue the work on the EuroHPC long-term strategy document. INFRAG members have already provided their input online and during the meeting they had the opportunity to closely collaborate in finalizing various parts of the document.

The group also discussed the next steps for the various Working Groups and in particular the setup of the WG on Access Policy. An open day will be organised at the end of the year (probably mid-October) that will bring the INFRAG WGs together and will provide an opportunity for public HPC stakeholders to be informed about their work and provide their own feedback to the group.
