

EUROPEAN HIGH PERFORMANCE COMPUTING
JOINT UNDERTAKING

The interim Executive Director

**Executive summary of the 11th meeting of the Infrastructure Advisory Group of the
European High Performance Computing (EuroHPC) Joint Undertaking**

Wednesday 8, April 2020, virtual meeting

Executive Summary

The 11th meeting of the EuroHPC Infrastructure Advisory Group (INFRAG) took place on 8th April 2020. The meeting was organised remotely using a teleconferencing system due to the Covid-19 pandemic and the traveling restrictions in place.

The main discussion points in the agenda were the contribution to the EuroHPC Access Policy document, the next INFRAG Multiannual Strategic Agenda as well as the progress of Scientific and Industrial Users Working Groups.

INFRAG will collaborate with PRACE to provide input to the EuroHPC Supercomputers Access Policy. The proposal will be finalised by end of May to be submitted to the EuroHPC Governing Board.

The group started working on the concept and ideas for the next Multiannual Strategic Agenda. Members have suggested various topics to be included and further developed within the document. INFRAG chair will collect these ideas and will bring them for discussion in the next meeting.

The next meeting will be organised at the end of June 2020 also remotely since the travel restrictions are unlikely to change during this time.
