

EUROPEAN HIGH PERFORMANCE COMPUTING JOINT UNDERTAKING

Summary of the 6th meeting of the Infrastructure Advisory Group (INFRAG) of the European High Performance Computing (EuroHPC) Joint Undertaking 5 June 2019

Executive Summary

The sixth meeting of the EuroHPC Infrastructure Advisory Group (INFRAG) took place in Brussels on June 5th. The main agenda item of the meeting was to discuss and consolidate the preliminary input to the EuroHPC long-term strategic agenda. During the meeting the group discussed various aspects of the European HPC strategy which were incorporated in the document.

Particular focus was given on the exploitation of HPC by the European Industry and especially the SMEs. The INFRAG meeting was preceded on June 3 by a joint meeting with the PRACE Industrial Advisory Committee (IAC). The results from the latter provided input for the development of the document as well as the overall work of the relevant INFRAG Working Group. INFRAG and IAC agreed to continue collaboration on the topic. The group will also contact and invite other stakeholders of industry and science related to HPC in Europe.

In the coming weeks, INFRAG will continue the work on the strategic document. For this purpose a telco will be organised on 13 June and a face-to-face meeting on June 26 in Brussels.
