

# Research and Innovation Opportunities for SMEs

### **Funding for Research & Innovation**

Co-funded by EuroHPC, Participating States and in-kind contributions

### **Financial Instruments**

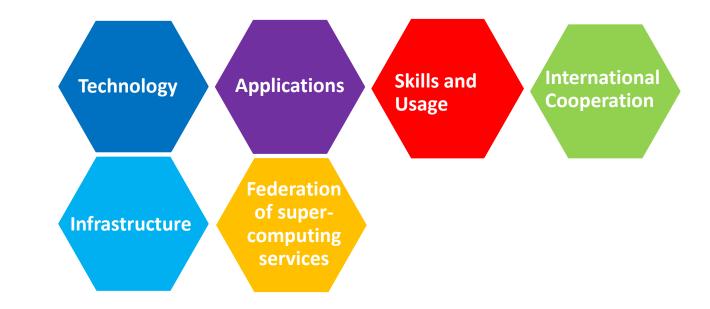

#### Grants

- Calls for Proposals
- Synergy grants

#### Procurements

- Calls for Tender
- Co-financing through ESIF, RRF

### Equity & debt financing

- Not provided by the JU but could be used in combination with grants and procurements
- The European Innovation Council offers equity, also blended with grants (SMEs)
- The European Investment Bank offers loans

### The HPC value chain

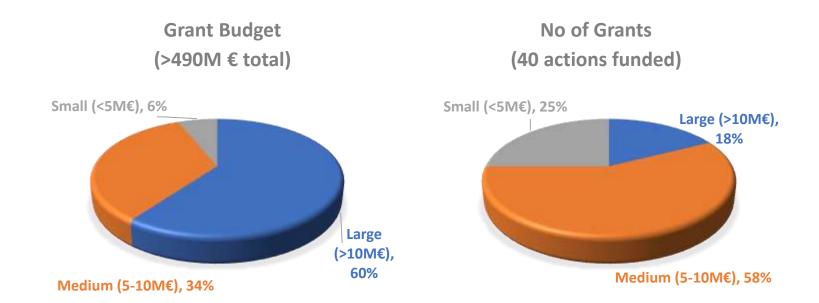

Chip manufacturers/ critical components	System Integrators; Storage specialists; Network providers	Independent software vendors (ISV)	HPC centres	HPC inter- mediaries	HPC customers
Producers of core components for HPC hardware  Small number of highly specialised manufacturers  No significant footprint in Europe	Integrate single components providing hardware infrastructures     Have a particular importance in the context of the European Science Cloud	Develop software solutions for HPC applications	Offer HPC services (at least partially based on a profit-driven business model)	Develop     HPC and     data driven     business     models      Link HPC     service     providers     with HPC     customers	Make use of HPC services to offer enhanced products and services     Focus on improving SME access to HPC
IBM.  NIDIA.	MEGWARE Bull Hos berindages	OKE-works OOSIS (rbf-morph)"  ParTec (CUST)R COUNTER C	SGOMPUTE H L R S	SICOS W Fraunhofer  Fraunhofer  PDS®C energy Secrety online	CybeleTech  DAIMLER

### **R&I** actions in numbers

#### **EuroHPC JU pools European resources to fund large strategic projects**

- HPC hardware including advanced processors, accelerators, high-speed interconnect
- Software stack including programming models, resource management software, HPC services
- Applications for R&I covering many scientific domains and topics, engineering
- Skills, usage and HPC adoption supported by a pan-European network of Competence Centres

## Industrial R&I funded by EuroHPC JU

### Industrial software, HPC applications and workflows

#### **Industrial partners**

- DOMPE FARMACEUTICI SPA (IT)
- E4 COMPUTER ENGINEERING SPA (IT)
- tofmotion GmbH (AT)

Objective: Implement a computer-aided drug design solution for automated drug discovery

Budget: €5,938,656.25

#### **Industrial partners**

- AIRBUS OPERATIONS SAS (FR)
- OFFICE NATIONAL D'ETUDES ET DE RECHERCHES AEROSPATIALES (FR)
- DEUTSCHES ZENTRUM FUER LUFT UND RAUMFAHRT EV (DE)

Objective: development of CODA - the new reference flow solver for aerodynamic applications inside AIRBUS group

Budget: €3,998,703.75

#### **Industrial partners**

- BULL SAS (FR)
- NEUROPUBLIC AE PLIROFORIKIS & EPIKOINONION (EL)
- GE AVIO SRL (IT)

Objective: Workflows and applications for aeronautics, climate and weather, and energy domains

Budget: €8,815,845.00

### exaFOAM

Exploitation of Exascale Systems for Open-Source Computational Fluid Dynamics by Mainstream Industry

#### **Industrial partners**

- ESI GROUP (FR)
- E4 COMPUTER ENGINEERING SPA (IT)
- UPSTREAM CFD GMBH

Objective: Improvement of the OpenFOAM software for computational fluid dynamics across the entire processing chain

Budget: €5,425,618.75

### **Skills and Usage**

# Expertise and HPC resources

# Financial support for HPC uptake

# Talent development

- EURO
- European network of NCCs in 32 countries to widen the use of HPC in Europe.
- Support SMEs,
   public services and
   private businesses
- Gateway for users to access European HPC resources

- Boost innovation and business opportunities for SMEs
- Solve business problems with HPC, financial support and expertise from European HPC leaders

- Train the next generation of HPC experts in Europe
- 1st pan-European
   MSc Programme
   in HPC including
   19 countries
- Connect academic education with HPC industry

" It is our proposed level of ambition that by 2030:

- 75% of European enterprises have taken up cloud computing services, big data and Artificial Intelligence
- More than 90% of European SMEs reach at least a basic level of digital intensity "

### **National Competence Centres for HPC**

#### EuroCC

A European network of more than 30 national HPC Competence Centres to widen the use of HPC in Europe

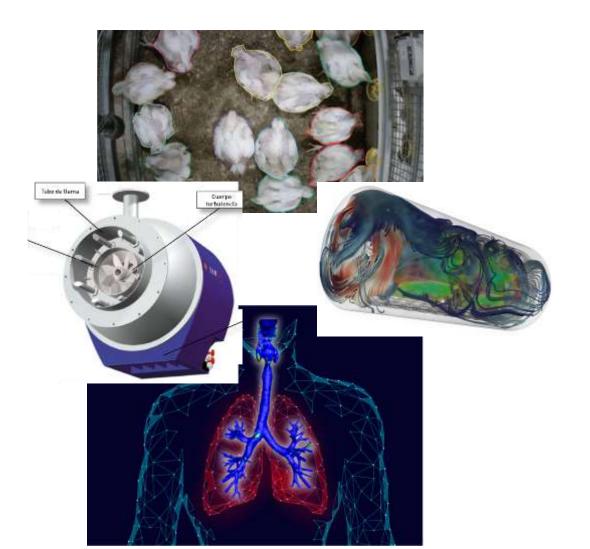

- Provide training and specific local support to access to HPC resources, expertise and funding free of charge
- Serve as single point of access to a European network of HPC experts for users from academia, industry, public administrations and in particular SMEs
- Support HPC uptake by businesses and implementation of best practice
- Ensuring a coordinated and consistent high level of expertise across Europe in HPC and related disciplines e.g. data analytics (HPDA) and artificial intelligence
- Mapping competencies and identifying knowledge gaps

# Stimulating the innovation potential of SMEs

https://www.ff4eurohpc.eu/

- Financial support for SMEs to
  - Boost innovation potential and competitiveness through HPC
  - Address business challenges with HPC
  - Adopt HPC in existing business models
  - Develop skills in related disciplines on the basis of HPC, such as high performance data analytics (HPDA) and artificial intelligence to solve specific business problems
- **Grant of 50.000 150.000 € per beneficiary**
- **Support by experts from leading European HPC** centres

### **Proposal evaluation**
