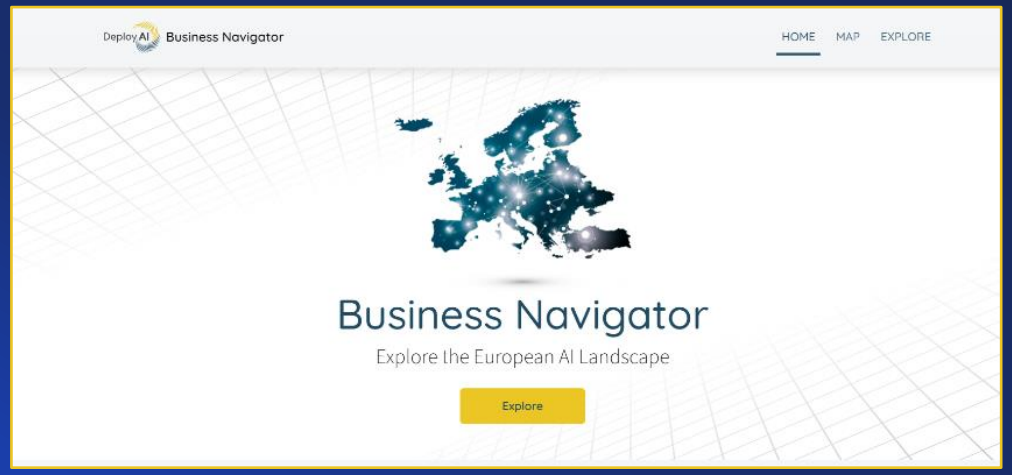
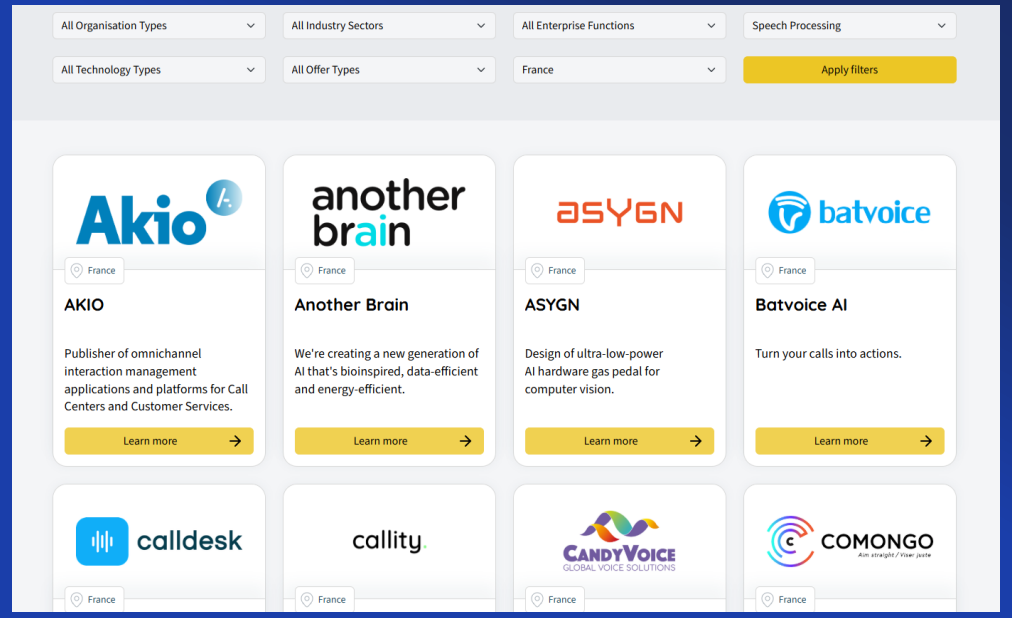
Get Connected with Business-Navigator.AIoDP.ai





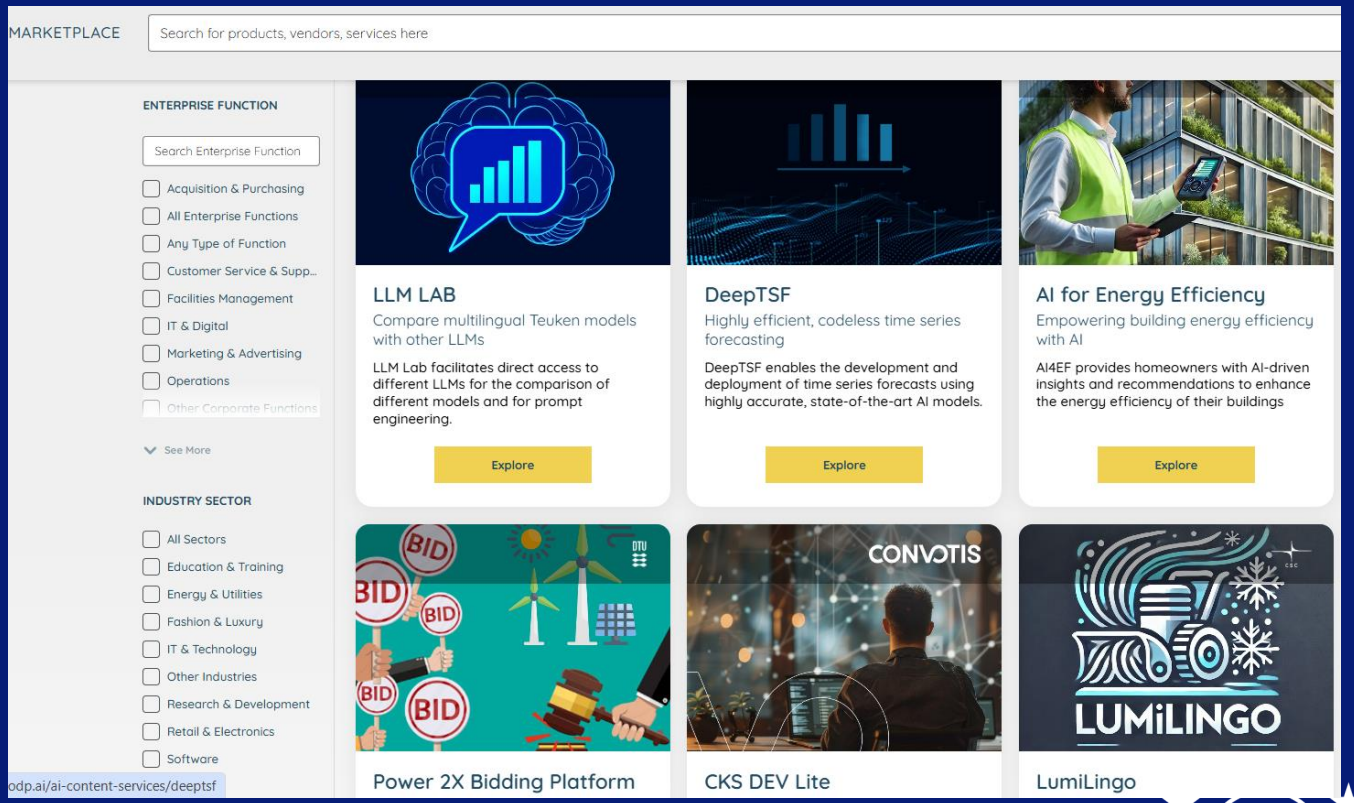
Comprehensive Overview and Navigation of TOP European AI Contacts:

- Business contacts easily accessible
- MAP with visualized Landscape
- Different views to filter and explore the landscape

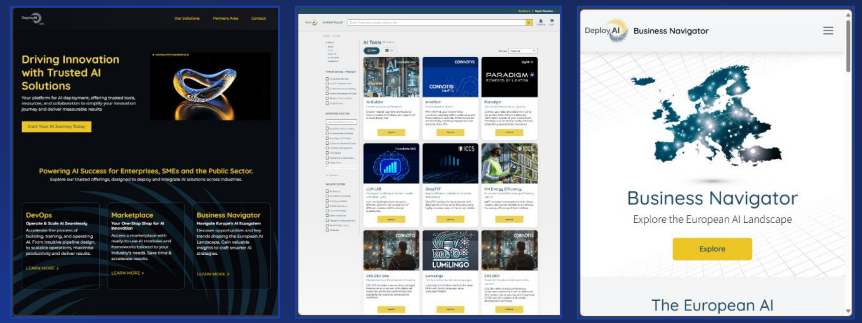
AIoDP: One-Stop-Shop of European AI ressources – The Market Place

Access to:

- HPC/cloud resources
- AI DevOps tools
- Sector specific AI applications
- European LLMs (e.g. playground, benchmarking)



AIoDP.ai - Platform Main Purpose and Function



Facilitate AI adoption and utilization across Europe

[01]
Build:

Create your Custom AI Services

[02]
Train:

Train and adapt AI for your purpose

[03]
Operate:

Run AI in compliant Environment

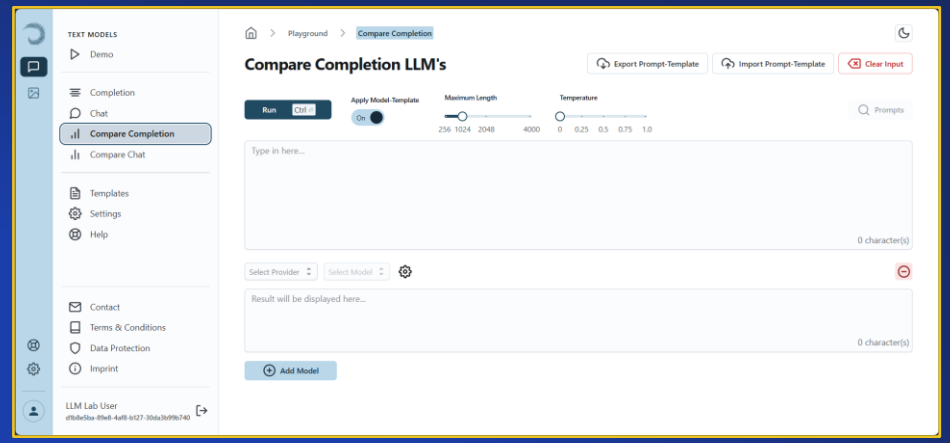
[04]
Provide:

Find partners and users for AI Servives

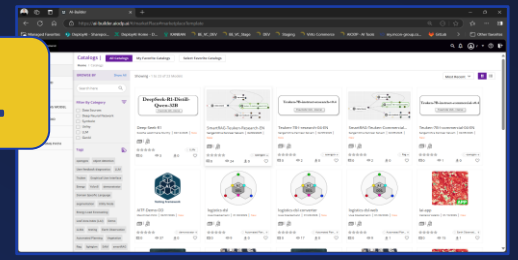
„low-code“ Usecase LLM Lab

LLM Lab Compare and optimize (e.g. Teuken)

Compare Prompting and LLMs:

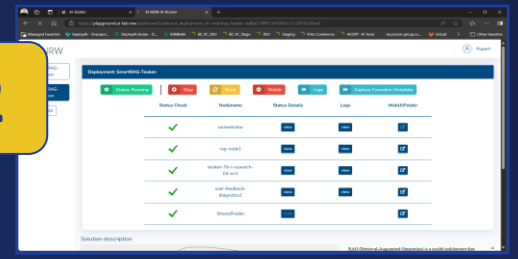


AI Builder



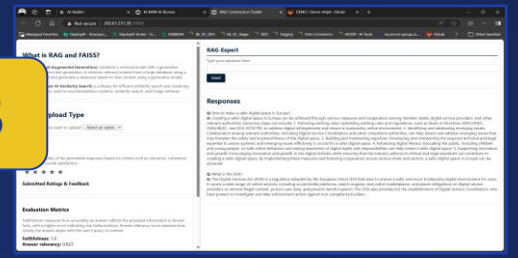
1

Choose a module and configure Pipeline



2

Run Pipeline



3

Use Application and Features of the Pipeline

Free try-out version available.

The LLM Lab developed by Fraunhofer IAIS is a comprehensive platform for interacting with large language models (LLMs).

AIoDP: Advantages for SMEs and AIFactories

- **Business Navigator: overall access to SMEs & Startups 27 member states**
- **Market Place: Central access to European AI technologies, infrastructure and AI assets**
- **Transfer of European AI research results to European AI ecosystem**
- **Open Calls: Funding mechanism for SMEs to build and apply European AI technologies**

AIoDP: Register Now

- **https://marketplace.aiodp.ai/sign-up**
- **Access to the Market Place, Business Navigator, Open Calls, AI Services, and more information**

Please register and don’t hesitate to share you feedback!

THANK YOU
